

Introducing Collection Collaboration!

VAASL's Advocacy and Colleague Connect committees are partnering with a new networking and sharing opportunity for school librarians called Collection Collaboration! This exciting tool is a way for us to share with one another as we build and grow our collections as well supporting one another in using our collections as a way to advocate for our programs.

Each month, we will highlight a few genres, style of books, or themes and then break out into groups based on grade bands. Come ready to share titles you have in your collection while having your current list to order because you will be adding titles.

We will meet the first Tuesday of each month at 7:00 via a Zoom link which will be shared the morning of via the VAASL listserv.

For the month of September, we will be exploring favorite reads of the past summer. If you could help us out and [take 30 seconds to share what your favorite school appropriate summer read was](#), that would be amazing!

We hope to see you there and cannot wait to talk books, collection development, and connect with you!!
